For immediate release:

Washington, DC – January 12, 2008 – Marvin Malecha, FAIA President of The American Institute of Architects (AIA) appointed Kevin J. Connolly, AIA of Milwaukee, WI to serve on the 2009 AIA Integrated Practice/Integrated Project Delivery Group. The IP/IPD Group works with architects, allied design and construction professionals and owners to explore and create better methodologies for facility project design and delivery. Among the many deliverables the group: reviews new contract languages, writes whitepapers, researches case studies, serves as expert resources and advocates for change, present seminars and webinars, and provides other resources that will enable achievement of the integrated practice and integrated project delivery initiatives of the AIA.

Connolly is joined by Pam Tuschner, FAIA – Managing Partner at WWCOT Architects, Palm Springs CA; Robert Smith, AIA – Managing Principal at CMMI Architecture, Atlanta GA; Charles G. Hardy, AIA – Deputy Director Property Development at General Services Administration, Chicago, IL; Michael Whaley, AIA – Preconstruction Services at J.H. Findorff Construction Madison, WI; Erleen Hatfield, PE Thornton Tomasetti New York, NY; Renee Cheng, AIA – Dean of the School of Architecture at University of Minnesota.

Integrated Project Delivery (IPD) is a facility design and construction methodology that leverages early and continuous contributions of knowledge and expertise from all project team members through the utilization of new technologies, allowing them to expand the value they provide to owners throughout the project life cycle.
